In the words of **Pastor Alfonso Gonzalez**, (a church minister and Rhapsody of Realities Partner)

*“The earthquake that struck the country has affected greatly the province of Esmeraldas, thus the situation has been very hard and difficult for survivors after the earthquake. Our presence in the country has brought hope to the victims of the Earthquake. Since we heard and visited the site, with deep compassion the Holy Spirit has led us to reach out and collect food for those affected by the earthquake and so far, we have distributed 650 copies of Rhapsody of Realities. At a time like this, the people are moved with compassion towards the victims, and we have volunteers from the University take supplies like; food, water and medicine on behalf of the Partners to the Survivors.”*
